DAMP WALLS.—NEW PATENT PAINT, as used at the TOWER, by order of HER MAJESTY'S HONOURABLE BOARD of ORDNANCE; at the TUNNEL; ZOOLOGICAL GARDENS, Regent's-park, and various other public and private buildings; in quantities to finish twenty square yards per 14s.

PATENT LIQUID CEMENT for the fronts of houses, for beauty pre-eminent, giving the appearance of fine cut stone, and only one-eighth the cost of Oil Paint. In casks of 1, 2, and 5 cwt. at 3l. 10s. and 7l. cask.

PATENT MINERAL ZINC PAINTS, invaluable for cheapness, beauty, and permanence, ready for use. White Stone and Lead, 4s.; Oxford and Blue, 4s. per gallon.

BLACK MINERAL PAINT, very permanent, half the usual price, sale 3s. per gallon.

NEW PATENT COLOUR for inside work, may be applied as Wood, Stucco, Cement, or over Oil Paint. No smell, and will dry in an hour. In casks of 1 cwt. at 14s.

G. BELL and CO. Steam Mills, 2, Wellington-street, Goswell-street, London.

HUBBUCK'S PATENT WHITE ZINC PAINT.—THE PERMANENT WHITE of the Ancients, by the gentlemen hitherto restricted to the use of the artist, is now offered at the price of the ordinary white lead.

Four years since the proprietors placed their manufactures on a large scale, and put this elegant Paint in competition with White Lead.

Its confessed superiority over every other paint hitherto known brought forward various imitations.

These inferior productions, frequently made from zinc ores, containing lead, arsenic, and other deleterious material, all the injurious to health, destroy the body, and reducing the preservative properties for which the original paint stands pre-eminent.

In justice to the proprietors these should not be confounded with the original, even though sold under the pretence that it is all the same.

Hubbuck's paint is entirely free from any injurious properties whatever; it is healthful in the manufacture, healthful in use, and healthful to occupants of rooms newly painted with it.

As a guard to the painter against the substitution of the inferior paints, each cask is stamped

"HUBBUCK, LONDON, PATENT,"

and if the cask has not been so marked, the reason is obvious.

The powdered White Zinc also may be had for grinding in oil; also for use for porcelain cards, for japanners, for gutta percha, and for plaster decorations, and the other purposes where it is used with size, gum, varnish, spirit &c. &c.

A circular with full particulars may be had of THOMAS HUBBUCK and SON, Colour Manufacturers, opposite the London Docks.

PURE PATENT WHITE ZINC PAINT, of the VIEILLE MONTAGNE ZINC MINING COMPANY of BELGIUM.—This Paint is superior in every respect to White Lead which it surpasses in whiteness and brilliancy; it grows very hard after it is applied, and is, therefore, unexceptable of a very high polish. It is unaffected by sea-water, sulphuretted hydrogen, or any other gases.

WHITE ZINC PAINT having some of the poisonous qualities of White Lead, avoids the dangerous darkness to which workmen, as well as persons inhabiting newly-painted houses, are subject.

The VIEILLE MONTAGNE COMPANY import the Oxide in casks bearing their mark, VM, without which none are genuine, and is to be obtained dry or ground at the Company's Agents at the following places, viz.:—London, Liverpool, Birmingham, Hull, Newcastle, Leith, Glasgow, Bristol, Plymouth, Norwich Ipswich, Dublin, Cork, Belfast, Jersey, Portsmouth, Poole, and the Isle of Wight; and from Messrs. Blundell, Spence, and Co. Hull. It may also be obtained from the Grinding Agents Messrs. C. DEVEUX and Co. 33, King William-street, City. Wholesale Agents, Mr CHARLES JACK, 4, Tottenham-court, New-road and 33, Upper Thames-street, who sells it in tins of 14 lbs. 21 lbs. 28 lbs. and upwards, at low rates; and Messrs R. ANDERSON and Co. Timber-bush, Leith, wholesale and retail.

The Company also employ a painter, who will undertake any description of painting in Zinc by contract.

Since its introduction into the United Kingdom, the Admiralty and the most eminent professional men have given it their preference. The public is cautioned, that if White Zinc Paint is adulterated, it becomes a very inferior paint, and peels and washes off.

For further particulars apply to Mr. H. T. SCHWOLL, General Agent for the United Kingdom, at the Company's Offices, 13, Manchester-buildings, Westminster.

THE VIEILLE MONTAGNE ZINC MINING COMPANY beg to inform the public that they have appointed Messrs. T. and S. KNIGHT, of Great Suffolk-street, Southwark, as their painters, who will be ready to execute any description of painting and decorating with the Pure Patent White Zinc Paint.

THE WASHINGTON CHEMICAL COMPANY, NEWCASTLE-ON-TYNE;

Manufacturers of

PATTINSON'S OXICHLORIDE of LEAD.—The Washington Chemical Company having, during the last year, established a Manufactory of Pattinson's Oxichloride of Lead on a large scale, and being able to supply it with regularity, and to execute orders without delay, now proceed to bring this new and valuable preparation of Lead before their friends and the public, quite sure that it will not, in the present age, be condemned because it is new, and that it, judged by its merits, it must make its way, and finally take its place as one of the important manufactures of the country.

Pattinson's Oxichloride of Lead is a chemical combination of one equivalent of Chloride of Lead, and one equivalent of Oxide of Lead; it has well known that common White Lead is a chemical combination of one equivalent of Oxide of Lead, and one equivalent of the carbonate of Carbonic Acid, constituting what is called in chemical language, Carbonate of Lead. Now there is no reason to conclude that Carbonate of Lead is the only compound of lead which is white, and still less that it should be the most compound of lead for this purpose. In point of fact it is not so, for the newly-discovered Oxichloride is most, if not in all respects, to be superior; to excel in brilliantly white, and in a number of cases it has been tried against the best White Lead that could be obtained, and after a period of upwards of two years it has been found to retain its white colour, considerably better than the lead against which it was tried.

But the chief and by far the most important advantage it possesses is its remarkable and very decided superiority of Body; by which terms the power of covering surface well and expansively is understood among Painters. The attention of the discoverer was at a very early period drawn to this circumstance, and since that time the Washington Chemical Company have had abundant opportunities of placing its superiority in this important particular beyond all doubt. They have themselves performed a number of experiments, and have also caused a number of experiments to be performed in the large way, by various practical men, to ascertain accurately the covering power of equal weights of the best White Lead, and they now state the proportions to be as 60 to 100, that is, 60 lbs. of Oxichloride Paint will cover as much surface as 100 lbs. of the best White Lead, the mixing of coat being in the same proportions; besides this, the coating is thicker and more protective, both in and out of doors, as the Oxichloride dries into a hard, tenacious layer, more like an Enamel than paint.

In using the Oxichloride, no difference in the materials with which it is mixed is required. Oil and Turpentine being employed as usual both for work technically called Plattings, and for work intended to be varnished. For the use of Paper Stainers and Leather Dressers, the Oxichloride is found to be peculiarly suitable. The Washington Chemical Company strongly recommend this newly-discovered substance to the notice of consumers, both on account of its economy and its intrinsic good qualities as a paint.

AGENTS.

LONDON	Messrs. Blundell, Spence, and Co. 5, Upper Thames-st.
LIVERPOOL	Mr. Rudd Cooke, 7, Atherton.
MANCHESTER	Messrs. Johnson and Matthews.
LEEDS	Mr. James Dearden.

DEVONSHIRE AND CORNWALL	Mr. John Yeates.
	Mr. Kivell, Penrose, Tavistock and Plymouth.
EDINBURGH AND EAST COAST OF SCOTLAND.	Mr. Wm. Bailey, jun. Greenside-place, Edinburgh.
GLASGOW AND WEST COAST OF SCOTLAND.	Mr. John Stimatow, Glasgow.
DUBLIN AND SOUTH OF IRELAND	Mr. F. Lindsay, 31, Middle Abbey-street, Dublin.
BELFAST	Messrs. William Stevenson, jun. and Co.

DURRAND'S "BONDED and SUFFERANCE WHARF," TIMBER-PRESERVING WORKS, ROTHERHITHE.—DETHELLIZE process consists in preparing timber with creosote, or oil of tar, and is particularly applicable for Railway Sleepers, Bridge Timber, Telegraph Poles, Piers, Docks, Harbours, &c.; and the Outside Planking of Ships and Barges. And also for use in the colonies, as being perfectly impervious to the attacks of all land or marine insects. PAYNE'S, Mr W. BURNETT'S, and MARGARY'S processes, in addition to their preservative properties, are likewise non-combustible, and are, consequently, adapted in her Majesty's Dock Yards, as a preventive of fire in Ship Building; and are also extensively used in House, Farm, and general Building.

Estimates and full and complete Machinery for the application of the above processes has been erected on these premises, which, being close to the great Timber Depôt of the Docks, are advantageously situated for land conveyance, or reshipment; and from possessing Sufferance Privileges, are, consequently, equally applicable for Colonial and Foreign Trade.

Scale of charges and every particular of P. ST. QUINTIN, Superintendent, on the Wharf; or at Mr. BURT'S Office, 4, Charlotte-row, Mansion-house, City.

MINTON and CO.'S ENCAUSTIC and other PATENT TILES for Churches, Entrance Halls, Conservatories, Balconies &c.; Antique, Geometrical, and Alhambric Mosaics, manufactures of a highly decorative character and extreme durability, Slabs and Tiles for Fireplaces and Hearths, Centres for Grates, Table Furniture, White Glazed and Ornamental Tiles for Baths, Dairies, and Kitchen Ranges, may be had in great variety at their Warehouse, 5, Albion place, Blackfriars-bridge, London, and at their Manufactory, Stoke-upon-Trent, Staffordshire.

WHITE SUFFOLK and RED PACING BRICKS of superior quality. Moulded Bricks to any pattern.

COWLEY, KENT and ESSEX BRICKS; also Yellow and Pale Malm Seconds, Cutters, Parlours, Shippers, &c. &c.

KENTISH RAG STONE of the finest quality, and of the blue stone so much approved by architects, can now be supplied at a FURTHER and CONSIDERABLE REDUCTION in PRICE.

Apply to Mr. BENJAMIN GOUGH, 27, Newington-crescent, Newington Butts.

BRICKS.—Malm Cutters, Yellow and Pale Seconds, Paviors, and Pickings of good and sound quality, constantly on sale at H. DODD'S Brick-fields, which are only a quarter of an hour's walk from the Cattle.—H. D. earnestly requests purchasers to favour him with a visit, in order to inspect his stock, and to judge for themselves.

Malm Place, half-washed Stocks and Place Bricks also on sale. These bricks are sound, well burnt, and unusually free from defects; a very large proportion of the stock being suitable for external facing.

Apply to HENRY DODD and CO. at the Counting-house, Heston Brick-fields, Orange-walk, near the Rosemary Branch, Hoxton.

N.B. Red pit sand of approved quality constantly on sale upon reasonable terms. This sand, from its not containing any saline matter, is acknowledged to be preferable to river sand.

BRICKS.—FOR SALE, a quantity of large FLINTS, which are well adapted for boundary walls, and which have a very good effect when used with bricks for quoins, &c. in buildings of various descriptions. They are also of the best kind for flued work for chimneys, &c. and can be delivered alongside any wharf on the Thames below Vauxhall-bridge at 6s. per ton in quantities of one ton three or more at a time. At the present prices of bricks, a very large saving may be effected by their use. Discount allowed for cash.—Apply to WILKINSON and CO. Manufacturers of Bricks, Tiles, Lime, &c. Gray's Thurrock, Essex.

PAN TILES, 52s.; Plain, 35s.; superior White Suffolk Facing, Red ditto, Fire Brick, &c.—Best Stourbridge, Welsh, and Newcastle Fire Bricks. Lumps Tiles, Clay, Window Linen, &c. Gas and other shaped Goods, Window and Nonsuch Oven Tiles and Bricks Dutch and English Clinkers, Patent Waltile and Corn-drying finely perforated Tiles, 12in. and 9in. Paving ditto, unequalled in quality and colour, at WARD'S old-established Materna Wharf, Bankside, South-wark, London. Thames Sand, Concrete, Gravel, &c. &c.

PRIZE MEDAL AWARDED TO PRAKE'S PYRO-METALLIC TILES, PIPES, &c.

ILLUSTRATED TRADE LISTS, containing much information useful for reference; also unsolicited testimonials respecting a MATERIAL which, when well wrought, is probably superior to every other for drains or conduits, for ridges, hips, valleys, and every part of roofs, for plain or chequered floors, for paving and erections of a strong and durable nature, also many other purposes, supplied complete by THOMAS PRAKE (proprietor of Prake's "Terra-Metallic"), No. 4 WHARF, CITY-ROAD BASIN, LONDON, and at THE TILERIES, TURNTALL, STAFFORDSHIRE. The lists contain both prices by number, and approximate cost by measure. It is solicited that letters be prepaid, and state if Stafford shire or London prices are wanted. Specimens were at the GREAT EXHIBITION, Class 27, No. 125 (having been at first No. 711).

PRIZE MEDAL, CLASS 28.

HIGH-PRESSURE VALVE COCKS.—LAMBERT'S PATENT.

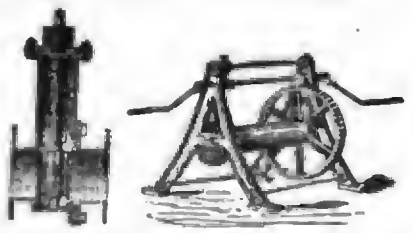
These Cocks have, during the last five years, been extensively and most successfully used in many Towns under circumstances of high pressure, varying from 100 to 350 feet; their efficiency and durability is by experience established.

The Equilibrium Ball-valve is simple and certain in its action, and is cheaper than the common Cocks now in use.

Kingsland iron, self-acting, and other Sinks, upon economic arrangements, suitable for public buildings, cottages, asylums, &c.

THOMAS LAMBERT and SON,

Brass and Iron Founders Short-street, New-cut, Lambeth.



IMPROVED SLUICE COCKS for Water Gas, or Steam, brass-faced, and Sluices raised by square screwed, engine-turned Screw, working in Brass Nut, in every respect adapted as can be manufactured, are offered at the following prices per inch:—

2 inch.	3 and 4-inch.	5 to 8-inch.	10 to 18-inch.
12s.	14s.	12s.	18s.

Lithographs of the improved self-lubrication, and various other constructions with descriptions and prices attached, may be had on application.

Sluice purchase Bellders' Crabs, as above, fitted with Tee Handles, and Wrought Iron Brazes and Spindles, with bell to throw in and out of gear, price 6os. each. Delivered in London free.

BARRETT, EXALL, AND ANDREWES,

Katesgrove Iron Works, Reading.

Agents in London.—DEANE, DRAY, and DEANE, where the above may be seen.

GREAT SIMPLIFICATION and ECONOMY in FIXING CLOSETS.

By the use of UNDERHAY'S PATENT REGULATOR, the SEPARATE CISTERN, SERVICE-BOX, VALVE, CRANKS, and WIRE are dispensed with, yet ensuring a BETTER flush of water than from any service-box.

The manufacturers, CHARLES BOTTEN and SON, solicit a call from all parties interested, they having pan, valve self-acting, and Jennings's Closets fitted with this apparatus, and dared for inspection; or they will be happy to forward drawings of the same.

CHARLES BOTTEN and SON, Brass Founders, Engineers, Gas Meters and Fitting Manufacturers, Crawford-passage, Clerkenwell, London.

BEETSON'S PATENT VALVE-CLOSET.—

JOHN WARNER and SONS,

Crescent Jewin street, London

Sole Manufacturers.

VALVE-CLOSETS are the best in principle, and the most cleanly and inodorous in action.

This Patent Closet combines the great desiderata, cheapness and durability, and the following advantages:—

The Valve is protected from wear and injury by India-rubber; and cisterns, valves, cranks and wires are not required, and any number can be fixed to one supply.

A great variety, and large Stock of

PANS, HOPPERS, SELF-ACTING, and WHIP CLOSETS, &c always on hand.

JENNINGS'S EARTHENWARE WATER-CLOSET.

This Closet has all the ADVANTAGES of a PAN or VALVE CLOSET WITHOUT ANY DISADVANTAGES. It dis-places no impure air; it is free from all machinery; it is not close in action; it is imperishable in its material; it saves the expensive lead trap. The basin has a large water surface, and is so formed that it cannot be soiled. Anything improper that may into the basin can be immediately seen and removed, and the trap being above the floor can be reached through the basin without disturbing the seat.

JENNINGS'S SELF-CLOSING STOOL COCKS.

For supplying the above.

With Plain Handles	12s.
With Plain Flat Plate and Handle	13s.
With Bath Plate and Ivory Handle	13s.
With Extra Large Bath Plate and Ivory Handle	18s.

JENNINGS'S INDIA-RUBBER TUBE CLOSETS.

By applying Underhay's Water Regulator, the above closet is now as easy to understand and fix as a cock to a sink.

JENNINGS'S INDIA-RUBBER TUBE COCKS

Are working most satisfactorily in eighteen public buildings.

JENNINGS'S NEW BELL TRAP

Is well worthy the attention of Architects.—Apply,

G. JENNINGS,

ENGINEER AND GENERAL BRASSFOUNDER,

66, Great Charlotte-street, Blackfriars-road.

PRIZE MEDAL WATER-CLOSETS,

PATENT FINE-COCKS,

PATENT HIGH PRESSURE MIX, STOP, AND BALL COCKS.

Kirkwood's Registered Tubular Water-Closet,

Self-acting and Cottage Water-Closets,

Bateman and Moore's and Carlton's Patent Hydrants,

Carlton's Patent High Pressure Single and Double

LOOSE VALVE-COCKS,

GUTTA PERCHA TUBING, CISTERN LINING,

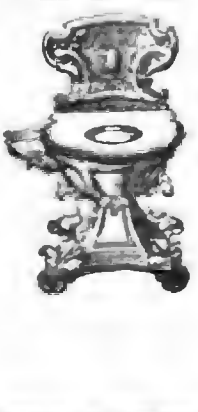
and other leadless articles for

DRAINAGE, SEWAGE, AND WATERWORKS PURPOSES.

May be seen fixed Closets and Cocks as fixed ready for use on application to

THOMAS BEGGS, 27, SOUTHAMPTON-STREET, STRAND, LONDON, late of 12, Fleet-street; or

GUEST and CHIMMEN, BRASS WORKS, ROTHERHAM.

Drawings, Descriptions and Testimonials will be forwarded, per post, on application as above.


From fifty to sixty of the Closets and Forty of the Patent Fine-Cocks were fixed for use in the Crystal Palace.
